

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

tis manifest that there is a motion of the heart and blood, and yet the respiration suppressed: Where he desires it may be considerd with- all, that the Lungs once inspired doe more easily transmut the blood, than those that never had any commerce with the Air; as also, that since part of the blood in a *fetus* passeth through the Lungs collapsed, without respiration; all the blood may more easily pass through the once inflated and expanded multitude of bladders, &c.

Errata in this Numb.

p. 665. l. 15. r. i o e; et. p. 670. l. 6. r. hath not taken. ibid. l. 12. r. as it shews. ibid. l. 34. r. permanent.

Imprimatur,

Julii 18.
1676.

JONAS MOORE,
Soc. Regiæ Vice-Preses.
